

# SCANDINAVIAN RAILS

RIDER JESPER TJADER PHOTO ADAM KLINGETEG / RED BULL CONTENT POOL

# FOR THE LOVE OF THE SPORT

**OUR RAIL BUILDING EXPERIENCE GOES WAY BACK TO THE EARLY DAYS OF SNOWBOARDING. WE MORE OR LESS INVENTED THE GENRE IN 1993, AND ARE TODAY KNOWN AROUND THE WORLD AS THE LEADING RAIL AND BOX MANUFACTURER.**

**OUR RECIPE IS SIMPLE; TAKE ONE PORTION TRUE PASSION FOR THE SPORT, ADD A SPOONFULL OF SOME OF THE WORLDS BEST SNOWBOARDERS AND FREE SKIERS. STIR IT DOWN WITH SOME HARD WORK FOR 29 YEARS - AND VOILA! WHAT HAS COME OUT IN THE END IS A WIDE SELECTION OF SNOW PARK OBSTACLES THAT WILL MAKE THE CUSTOMERS RETURN TO YOUR SKI RESORT AGAIN AND AGAIN.**

**THAT'S WHAT MAKES US TICK.**

# Kids Aluline

Light weight alu-plastic boxes.  
Great for ski schools and children slopes.  
Super easy to move.

## Ludic line

The Ludic Line is a variety of wide boxes in different shapes and lengths. All pieces are modular and based on our Combibox system. They are perfect for beginner parks, ski school areas and Funslopes. Funslope is a mix between a snowpark and a crosscourse, placed in a green/blue family slope. Jumps, wide boxes, bankturns, tunnels and bridges makes this a unique place for the whole family.

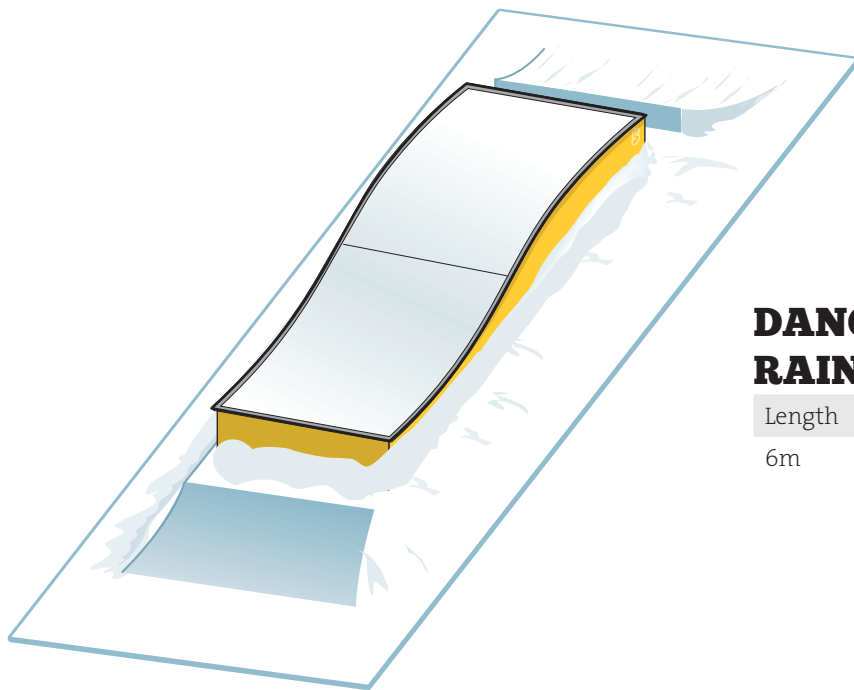

### DANCEFLOOR

Combine several dance floors into one huge floor with our CombiSystem.

Length	Height	Width	Name

# COMBIBOX-STARTKIT. 21 METER.

This package is based on the CombiBoxSystem™ and is a perfect start kit for any ski resort.

The pack is modular and is constructed in sections, each section is easy to move and assemble by two people. The pieces lock together to create any length desired. The Combibox is delivered in six 3 meter pieces, one 1,5 meter piece, two Flat-Down kinks, one Down-Flat and two End pieces. With this set you can easily create more than eighteen different set-ups.

Additional pieces from the CombiBoxSystem™ can be ordered for even more variety to your snow park.

## ASSEMBLY EXAMPLES

After a demand for larger single piped rails, we've developed The CombiRailSystem™, a unique patent pending modular set of rails, that can be combined in an endless variety of lengths, shapes and different kinks. Each section is easily moved and assembled by two persons. The pieces are tightly locked together with strong bolts. This product will help create a unique riding experience in your park.

# COMBIRAIL-STARTKITS.

These packages are based on the CombiRailSystem™. They are a perfect start kit for any ski resort. The pack is modular and is constructed in sections, each section is easy to move and assemble by two people. The pieces lock together to create any length desired. Additional pieces from the CombiRailSystem™ can be ordered for even more variety to your snow park.

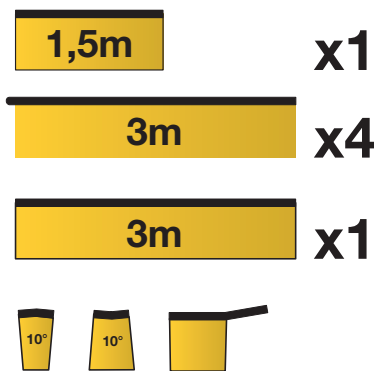

## COMBIRAIL START-KIT 17M

# SCANDINAVIAN **SNOW TOOLS**

Scandinavian Snowtools are designed and hand crafted in Sweden since 2000. Our well recognised quality and product range have been used in numerous competitions and ski resorts world wide. Proud Olympic Venue supplier

2002 Salt Lake City

2006 Turin

2010 Vancouver

2014 Sochi

2018 PyeongChang

2022 Beijing

APPROVED BY FIS

## ACE

Ace is a real trump card for every jump and pipe builder. It has been used to shape master slopes all around the world. With a telescopic shaft in anodized aluminium and a replaceable blade in stainless steel, the shovel cuts through the iciest pipe wall. Ace can be locked in lengths between 160-320 cm. Usage: Shaping of jump, half pipes, quarter pipes and so on. Weight: Approx. 5 kg

## QUEEN ULVA

This lazer sharp cutting head is designed for tight transitions. Perfect for banked slalom and technical Ski- and SBX starts. Length 160 cm. Weight: Approx. 4 kg

## QUEEN

Lighter yet as strong as Ace - the perfect tool for all type of transitions. Developed together with the best SBX builders in the world. A slightly steeper blade angle than Ace - makes it easier to cut the sides of jumps from above. Usage: The perfect tool for removing icy bumps. Shaping of jumps and SBX features. Length 160 cm. Weight: Approx. 4 kg

## LAZER

This rake head is based on our first rake, The King. The stainless steel blade will easily cut through any ice in the liftload or the SBX track. Weight: Approx. 3 kg

## MR T

A development of Prince with a bigger blade, specially made for big take-offs. The extra set of teeth enables backblading for a perfect surface. Length 160 cm. Weight: Approx. 3 kg

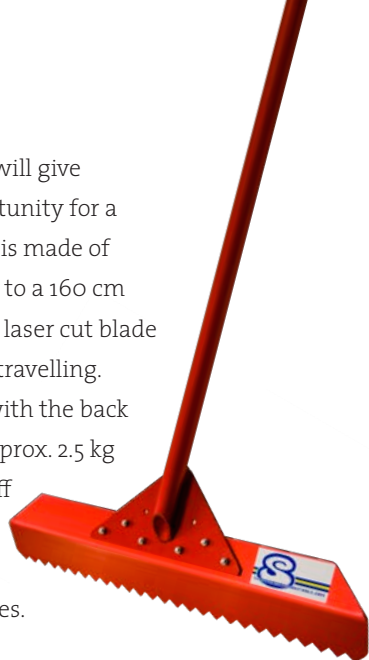

## DAVIDE AKA BIG DOG

Superstrong blade in stainless steel with lazer sharp dubble edged teeth. This blade will make your job easy even in the toughest icy conditions. Length 160 cm. Weight: Approx. 3,1 kg

## KING

With the rake King you will give everyone the best opportunity for a successful ride. The rake is made of aluminium and adapted to a 160 cm board bag. The anodized laser cut blade is easily removed when travelling. Remove uneven edges with the back of the blade. Weight: Approx. 2.5 kg Usage: Getting on and off the ski lift, in queues, and when shaping jumps, rails and half-pipes.

## GRETA

A mini version of Jon - the best shaping tool ever made. Put it in the hands of next generations jump creators.

Weight: approx 1,5 kg

Length: 1,2 m

## PRINCE

Prince combines the Kings and a ordinary shovels advantages. Its ribbed blade easily tears up icy unevenness's in the ski lift boarding zones. The shovel makes It easy to remove leftover snow. Prince is made in anodized aluminium. Weight: Approx. 2.5kg Usage: Indispensable at every fun park, the perfect shape tool.

## JON

A bigger brother of Prince. Bigger blade for heavier duties. Weight: Approx 2,5 kg Usage: Indispensable at every fun park, the perfect shaping tool.

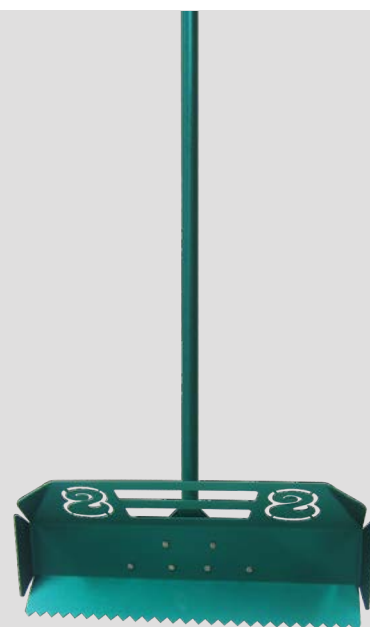

## THE BADGER

Superstrong blade in stainless steel made for the toughest jobs. Sharp as Hell. Weight: Approx. 3,3 kg

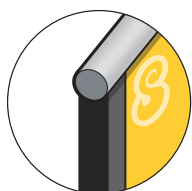

## WIKLUND

The largest rake in the fleet. Designed together with Niklas Wiklund from Pink Park Lindvallen, Sweden. If you want to build a rail-take-off in no time, Wiklund will do the job. Do you have the power? Usage: Indispensable at every fun park, the perfect shaping tool. Weight: Approx 2,7 kg

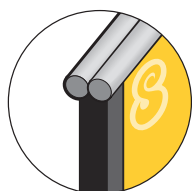

## SLIDING OPTIONS

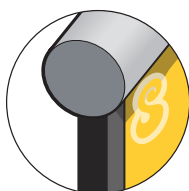

### SINGLE

Ø 60mm  
Ø 100mm

width 400 & 700mm

### X

100 x 40 mm

## RAILS MADE FOR RIDING

To make it through years of riding, our rails have to be of the highest quality throughout. That's why we only use the best materials available. They are built to last, so be our guest - give em' a hard time.

## CUSTOM DESIGN

With our experience we can of course supply custom made rails, boxes, wall rides etc.

### STEEL

Warm-welded steel painted in black.  
Looks good and keeps the rust away.

### PLASTIC

Top sheet in durable white UV and weather resistant 10mm PE-350 plastic. This will guarantee the best sliding surface.

### SIDEBOARDS

All boxes and rails comes in phenolic coated 9mm WISA plywood as standard.  
We also provide painted 9mm WISA plywood.

Standard sideboards colours

Yellow

Black brown

# A BIG UP TO OUR FRIENDS

## Since 1993

We have served the world with our services and products. We are a proud Olympic venue supplier of the half pipe and SBX designs, and the tools to shape them, in 2002 Salt Lake City, 2006 Turin, 2010 Vancouver, 2014 Sochi and 2018 PyeongChang. We are today present in 44 countries and in over 300 ski resorts.
